

National Cyber Security Awareness Month

October 10, 2015

In the midst of US and China talks involving cyber security threats to the State, President Obama has designated October as National Cyber Security Awareness Month. The program will feature weekly Keystone Events as well as a heavy Twitter campaign. Those tweeting about and reading about cyber security issues are encouraged to use #CyberAware. More information about Cyber Security Awareness month can be found at the [Department of Homeland Security](#) site as well as [StaySafeOnline.org](#), run by the National Cyber Security Alliance.

Avalon, recognizing the risk to businesses from cyber security threats, will be featuring weekly Cyber Security Tips in Quest to raise awareness on the topic. You can read the first tip discussing Cyber Risk Stats [here](#).

The Quest Newsletter is designed to provide critical information in the transportation industry. Avalon Risk Management is not responsible for the accuracy or reliability of information contained in articles. The reader/user assumes all risk in the use of such information.
